PräPremo

Manual book corner press

PräPremo is a manual press to fix metal book corners.

Operation requires very little effort; pressing may be effected with 2 fingers (too much pressure may lead to deformation of the corners).

It is suitable for book corners up to 30 mm length.

The device comes in a handy case with divided storage space for different corners. A starter-kit of corners is also included.

The starter-kit consists of:

Book corners, slim

50 pcs 15 x 15 mm, nickel-plated, item no. 54641015

Book corners, straight

50 pcs 16 x 16 mm, nickel-plated, item no. 5466-016

50 pcs 22 x 22 mm, nickel-plated, item no. 5466-022
